**What's the Difference  
Between a  
Broken Toy  
and a  
Broken Child?**

OKLAHAVAEN  
 children's  
**Chiropractic**  
 center

has been giving hope and healing to the broken children for over 45 years. We have observed that this is what it takes to heal a child:

- A responsible, drug-free lifestyle
- Chiropractic adjustments
- Whole foods
- Years ago took 3 months; children are sicker today, it can take 3 or more years
- Parents dedicated and committed to seeing their child as a spiritual being and not a label
- A mother committed to seeing her child reach his optimal potential
- A child must be loved to be mended

## *The Consequences of Broken Children — Our Future!*

Our throwaway society has used these labels to identify the broken children.

- ADHD— (4.4 million children)
- Autism Spectrum – (1 in 100 children age 8 years)  
 1 child in 94 in New Jersey  
 1 child in 86 in Japan  
 1 child in 54 in some areas of England
- Asthmatic – (9 million children)
- Juvenile Rheumatoid Arthritis – (300,000 children)
- Diabetic – (1 in 400-500)

### *A Broken Toy*

- Can usually be repaired by 1 person
- Takes about 30 minutes to 3 hours
- Requires industrial-strength glue
- Costs between \$5.00 to \$100.00
- Discard and replace it

### *A Broken Child*

- Requires caregivers and special education teams
- Life-long treatment
- Medical crisis intervention
- Cost of treatment estimated to be **several million \$\$ for each child** over his lifetime... Multiply that by the ever-increasing numbers of broken children and the **costs are staggering.**

*A child cannot be replaced... with your help  
 can be mended with time.*
