Children's Chiropractic Center

SPECIAL ISSUE SPRING 1986

2245 N.W. 12th Street Oklahoma City, OK 73107

WILL YOU HELP?

You are already familiar with the Children's Chiropractic Center known for many years as "Oklahaven." Established in 1963 as a non-profit health care center for children. The Center continues this original purpose today.

New and vigorous plans are now under way to assist the Center in accomplishing two immediate goals:

1. The Center plans to collect scientific data on early childhood disorders and Chiropractic treatment for them.
2. Building on this data of early childhood disorders and Chiropractic treatment, we propose to carry out

documented in-clinic research projects to benefit the profession as a whole.

Recent stories in several national and regional publications have brought new recognition and attention to the activities of the Center. Combine this with a revival of general interest in natural health care with Chiropractic for children which is spreading across the country, and your Children's Chiropractic Center is in a position to become the preeminent natural health care facility for children in the nation.

HELP US . . . HELP CHILDREN . . . like you know Chiropractic can!

The Children's Chiropractic Center is going to collect and disseminate information relating to causes and treatment of young children's health problems. This is especially true of the most severe problems for which chiropractic is the natural treatment to use. The Center has the resources and computer capability to collect this data, evaluate it and make it available for your use.

To start this Program, we need your input. As part of this special issue of "In-Line", there is a questionnaire for you to complete about the health problems you treat. Please take a few minutes to fill out this questionnaire and return it to us as soon as possible. This data bank will become more valuable to you each year as we constantly add to existing data in various areas and compare and evaluate results.

Please call the Children's Chiropractic Center at (405) 525-2101 if you need clarification of the questions regarding your treatment of childhood disorders. Our desire is to make this data helpful to you in treating the many childhood maladies through chiropractic.

Thank you for your continuing help and interest.

State Representative Rollin Reimer,
Advisory Board Member

HOW YOU CAN MAKE A CONTINUING DIFFERENCE

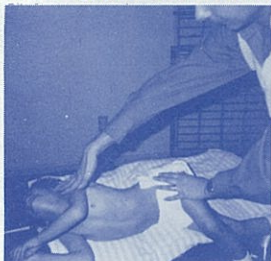

The Children's Chiropractic Center depends on the regular contributions of interested individuals and organizations to carry out its work since children are treated on a "sliding scale" according to the ability of the family to pay. When you become a member of the center, you help provide the additional income needed for expanding our services to include the data bank and projected research projects.

As a member you will have access to data collected from Chiropractors on the diagnosis and treatment of the health problems of children. You will have access to the projected research conducted by the Center based on this data. You will also be able to use the facilities of the Center whenever you and your patients need them, and consultation with the staff for treating your patients who are children.

Most importantly, you will be part of a team giving many children the opportunity to live their lives free of the tremendous stress and psychological pressures of being "different."

To become part of the life changing team at the Children's Chiropractic Center, simply complete the Contributing Member Application form at the bottom of the questionnaire and mail it today with your first contribution. Several of your fellow Chiropractors have suggested a minimum contribution each month equal to an office visit. What you decide is up to you, we just want you to be part of the TEAM. Remember, your child patients grow into youth and then adult patients, if together we can help them early enough.

MID-JANUARY CHECK-IN AT CENTER...

MID-MARCH PROGRESS...

Taylor Telford of Chandler, OK came to the Center diagnosed as having market motor and mental retardation with cerebral palsy, legal blindness and scoliosis. Now she is showing increasing mobility, alertness and strength.

QUESTIONNAIRE

To start the Chiropractic Data Bank compiling facts on health problems and Chiropractic treatment of children, we need your help. Please answer with each child in mind and take more space if you have a special case on which to elaborate. We all know Chiropractors have long helped children, but now we need facts and documented evidence to speak with authority. May we count on you for help?

1. How many children under 3 years of age have you treated in the past year? _____.

2. Complete the following for each child:

Additional Notes:

Child:	Disorders:	Duration of Illness:	Length of time treated:	Method of treatment:
_____	_____	Birth	_____	_____
		1st year	_____	_____
		2nd year	_____	_____
		3rd year	_____	_____
		Accident	_____	_____
_____	_____	Birth	_____	_____
		1st year	_____	_____
		2nd year	_____	_____
		3rd year	_____	_____
		Accident	_____	_____
_____	_____	Birth	_____	_____
		1st year	_____	_____
		2nd year	_____	_____
		3rd year	_____	_____
		Accident	_____	_____
_____	_____	Birth	_____	_____
		1st year	_____	_____
		2nd year	_____	_____
		3rd year	_____	_____
		Accident	_____	_____
_____	_____	Birth	_____	_____
		1st year	_____	_____
		2nd year	_____	_____
		3rd year	_____	_____

NAME OF CHIROPRACTOR: _____

CONTRIBUTING MEMBERSHIP APPLICATION

Suggestions for Center...

YES, I want to be "IN-LINE" with the Children's Chiropractic Center.

Count on me for the following financial support:

- Monthly Alternate Months Quarterly

Amount: Amount of Office Call \$50 \$100 \$ _____

Amount Enclosed: \$ _____

Name _____

Address _____

Phone: ____ / ____

The Children's Chiropractic Center is a non-profit Organization so your contributions are tax deductible.

WHAT YOUR MEMBERSHIP WILL BRING TO YOU.

1. The opportunity to join with others to support your professional Center for treating children through chiropractic. This association brings you the very best public image.
2. Access to the Chiropractic Data Bank to assist you in treatment of childhood diseases and health problems.
3. Support of research into the diagnosis and treatment of early childhood health problems.
4. A wall certificate to frame and display which tells others about your interest in the health of children.
5. Referral of patients, their families and others back to your practice.
6. And, most importantly, your membership will help bring greater health to untold numbers of children, health which can change their entire lives.
